Official Statement Regarding White Supremacist Propaganda Distribution

Please be advised that we submit this joint statement on behalf of the City of Westminster Inclusivity Board and the Westminster City Council:

As the Inclusivity Board of the City of Westminster, we stand in solidarity against all forms of hatred and oppression. A few of our neighborhoods were recently targeted by an anonymous distribution of propaganda that promoted White supremacy. We believe that all residents, guests, and businesses of Westminster are entitled to live free of intimidation, threats, and fear. As such, we stand united with our friends, family and neighbors targeted or harmed by this hateful incident. As the Inclusivity Board of the City of Westminster, we condemn White supremacy and such attempts to divide our community. We pledge to undertake any action within our power as a City board and as individuals to eliminate evils such as racism in our community. We commit ourselves to the residents, guests, and businesses of the City of Westminster to ensure that our community is a beacon of light where diversity is celebrated and where all are treated with equality and dignity.
