

STANDLEY LAKE PRIVATE PROGRAMS

Spending time in nature can improve health and well-being, increase focus and test scores, and encourage stewardship for people of all backgrounds. Standley Lake offers guided nature education programs for schools, scout troops, organizations and any outdoor explorer groups. These programs can be customized to fit any age group, current classroom curriculum, state standards, badge requirements, or simply a topic your group is curious about. Programs are designed to create a memorable experience using hands-on and immersive activities.
